

Name: Hugo Pires Almeida

CODE SNIPPET 1:

Error: Code tried to add a string ("Hello") and an integer(1), which caused a TypeError.

Steps:

1. ran code and output was "TypeError"
2. Changed 1 to "1" to match data types(making both strings)

CODE SNIPPET 2:

Error: The for loop was missing a colon (:) and both for and print were not indented

Steps:

1. Added the missing colon
2. Indented for and print
